# STRONG, SAFE, DURABLE

Swing Kingdom's swing sets are engineered from a safety first perspective. Our slip resistant, vinyl clad construction materials are always splinter free, and no wood means no harsh, annual chemical treatments. Stainless steel hardware and corner brackets bring added stability, while optional bars and rails allow for age appropriate customization.

## In Every Detail

### GUARANTEED

Swing Kingdom's vinyl and decking products are the best and most uniform material available in the industry. Our vinyl is co-extruded under extreme pressure to assure a durable and beautiful finish for years to come. We use the vinyl elements to enclose the wooden structure elements. This protects them and reduces maintenance needs. The wooden structural elements of your home are covered to preserve them, and to reduce maintenance. The same philosophy is used for Swing Kingdom's vinyl play systems.
